Farms in 2016

-19

↓ since 2011

110

Farm Operators

27.3%

Reported more than 30 hours per week on the farm

56

Average age of Farm Operators

9.1%

under the age of 35
↑ since 2011(3.7%)

Number of Most Common Farm Types

22

Beef Cattle Farms

Decrease from 2011, 29 farms

5

Horse & Other Equine Farms

Decrease from 2011, 7 farms

4

Maple Syrup Production

No change from 2011

4

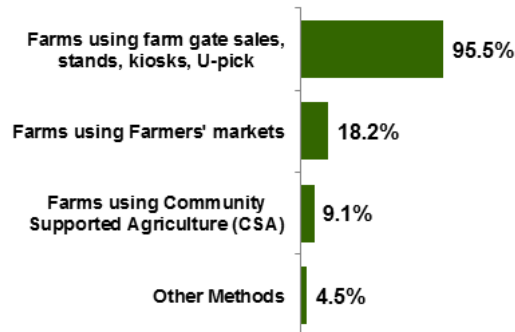

Vegetable Farms

Increase from 2011*

Farms selling agricultural products directly to consumers (n=22)

Farms may choose more than one method, therefore will not add 100%

*Number of farms by type is suppressed due to confidentiality

The Community Census Profiles are based on custom tabulations generated by Statistics Canada from the 2016 Population of Census for the CCSD Community Data Program.

The community profiles contain data from 2016 Census and long form program. The 2016 census data is considered to be of good quality and general comparisons can be made with similar data from previous years. Direct comparisons cannot be made between Statistics Canada's 2016 Long Form data and the 2011 National Household Survey (NHS)

The figures shown in the tables and charts have been subjected to a confidentiality procedure known as random rounding to prevent the possibility of associating statistical data with any identifiable individual. Under this method, all figures, including totals and margins, are randomly rounded either up or down to a multiple of "5", and in some cases "10". While providing strong protection against disclosure, this technique does not add significant error to the data. The user should be aware that totals and margins are rounded independently of the cell data so that some differences between these and the sum of rounded cell data may exist. Also, minor differences can be expected in corresponding totals and cell values among various census tabulations.

More data and glossary of terms is available, visit the County of Frontenac Economic Development website, www.infrontenac.ca and/or Statistics Canada website.
