

2023/24 Quality Improvement Plan for Ontario Long Term Care Homes

"Improvement Targets and Initiatives"

Fairmount Home for the Aged 2069 BATTERSEA ROAD, R.R. #1, Glenburnie , ON, K0H1S0

AIM		Measure								Change					
Issue	Quality dimension	Measure/Indicator	Type	Unit / Population	Source / Period	Organization Id	Current performance	Target	Target justification	External Collaborators	Planned improvement initiatives (Change Ideas)	Methods	Process measures	Target for process measure	Comments
M = Mandatory (all cells must be completed) P = Priority (complete ONLY the comments cell if you are not working on this indicator) A= Additional (do not select if you are not working on this indicator) C = Custom (add any other indicators you are working on)															
Theme I: Timely and Efficient Transitions	Efficient	Number of ED visits for modified list of ambulatory care–sensitive conditions* per 100 long-term care residents.	P	Rate per 100 residents / LTC home residents	CIHI CCRS, CIHI NACRS / Oct 2021 - Sep 2022	51094*	1st Qtr = 4.8, 2nd Qtr = 4.14, Total for Q1 & Q2 = 8.95	8.00	PROV AVG: 21 for Q3 2022/23 – Q2 2023/24, while Fairmount is more than 10 points below the provincial average and will continue with current strategies to reduce ED visits that are avoidable. South		1)At time of pending transfer, RN/Medical Team member to inform resident or SDM of available resources in-house to avoid	ADOC will identify why the resident was sent to ED and track this information in an Excel spreadsheet.	Number of ED visits will decrease in 2023/24 according to CIHI data.	in-house services will be explained/offered to 100% of residents or SMDs	
											2)Collaborate with the KHSC specialty group (Emergency Department, Internal medicine, KHSC@home team). Frontenac	Attend and participate in the KHSC specialty group. Implement suggestions/change ideas generated by the group.	Number of ED visits will decrease by 1.5%	Fairmount's nursing management team will participate in 100% of the KHSC	
											3)Provide skin glue training to registered staff.	Wound Care Nurse will identify new registered staff that require the training.	Number of residents transferred to ED related to skin tears that could have been glued will remain at zero (0).	100% of skin tears that are eligible to be glued, will be glued in-house,
